SECTION-1 INTRODUCTION

Capacity building of the provincial health department in service delivery and governance of the health sector were the mainstay of the health sector reforms agenda in the 90's. To sustain the capacity building initiative, Provincial Health Development Centre (PHDC) was raised to the status of first ever Provincial Health Services Academy (PHSA) in Pakistan.

The public sector health professional teaching and training institutions meant for paramedics, nurses and LHVs along with District Health Development Centers were attached to PHSA as its allied institutions. Later on in 1999, PHSA was given the status of an attached department of Health Department Khyber Pakhtunkhwa and assigned the role of stewardship of this network.

Provincial Health Services Academy has been assigned a robust mandate to conduct, among others, in-service training of the personnel of the Health Department and serve as teaching and training hub through its network for nurses, LHVs and paramedics. A complex of 24+ institutions thus formed, included the PHSA itself, 06 District Health Development Centers (DHDCs), 09 Government Colleges of Nursing (GCONs) and one Post Graduate College of Nursing (PGCN), 04 Paramedical Institutes of Medical Technologies (PIMTs) including one Post Graduate Paramedical Institute (PGPI) and 04 Public Health Schools (PHSs) of the province.

VISION

The vision for the institution is to become an internationally recognized center of excellence in Public Health and allied health professional teaching and training programs.
